Hi Kate,

I am not shocked to hear that you've experienced problems with US government computers – we often have trouble using them here on site!

If it is not too much trouble, please go ahead and arrange a laptop for me.

Looking forward to seeing you as well.

Thank you,

Peter

Subject: Laptops for IARC meeting

Dear Matt, Dear Peter,

I hope you are both well! I wanted to check in on the laptops you would bring and use during the Monograph meeting. As during the pre-meeting preparation, we will use IOPS as the primary means for sharing drafts and summaries among the Working Group. On-site at IARC, we use a secure wireless network, which can require multiple reconnections throughout the day.

In recent meetings, US government employees have experienced difficulties accessing the internet and their work email on their laptops due to security issues. To avoid such difficulties, we can arrange a laptop for each of you to use on-site. Alternatively, you may find a personal laptop preferable if you will work off-site in Lyon. Just let us know.

We are looking forward to seeing you next week in France!

Best,

Kate (and Dana)
